

Professor Blue Lost At Sea

Where are those that told my story

Where are those that carried me

Alone in a ball of sorrow

My own hypocrisy

We are dust we are shadows

We are lives lost at sea

We are ghosts of our tomorrows

We are cold eternity

There's just me to live my story

Storm is my reality

You are here to calm my weeping

No response ability

We are dust we are shadows

We are lives lost at sea

We are ghosts of our tomorrows

We are cold eternity

Raise my head and tell my story

Noise has calmed and smoke has cleared

Have the lies choked my talking

I am anywhere but here

We are dust we are shadows

We are lives lost at sea

We are ghosts of our tomorrows

We are cold eternity

Where are those that told my story

Where are those that carried me

Alone in a ball of sorrow

My own hypocrisy

There's just me to live my story

We are dust we are shadows

Storm is my reality

We are lives lost at sea

You are here to calm my weeping

We are ghosts of our tomorrows

No response ability

We are cold eternity

Raise my head and tell my story

We are dust we are shadows

Noise has calmed and smoke has cleared

We are lives lost at sea
