

Professor Blue

Love is the Space Between Us

A million streets in tiny lights
A million midnight strangers
A million missing promises
The spaces in between

A million streets in tiny lights
A million midnight strangers
A million missing promises
The spaces in between

We've known this, and us
And the daily dust
The solid bonds that tie
And sharing every breath I take with you
Intensifies, Intensifies, Intensifies, Intensifies
Love is the space between, The space between, The space between

We've known this, and us
And the daily dust
The solid bonds that tie
And sharing every breath I take with you
Intensifies, Intensifies, Intensifies, Intensifies

A story of a thousand miles, On the ancient tell-tale tiles, Twist around the moral ties
Morning tales we recognise

A story of a thousand miles, On the ancient tell-tale tiles Twist around the moral ties
Morning tales we recognise

We are, we are, we are, So small, children reaching, Tiny feather dancing,
Never landing, drifting
Everlasting, Intensifies, Intensifies, Intensifies, Intensifies

We are, we are, we are So small, children reaching, Tiny feather dancing,
Never landing, drifting
Everlasting, Intensifies, Intensifies, Intensifies, Intensifies

The tight intensify
In the space between, Closer
In the space between, Focus
In the space between

The tight intensify
In the space between, In the space between, In the space between,
In the space between, In the space between, In the space between
Love is the space between, Love is the space between
